

THE DREAM OF MOTHERHOOD COMES TRUE WHEN DR. PIERCE'S FAVORITE PRESCRIPTION IS USED.

Mrs. Axel Kjer, of Gordonville, Cape Girardeau, Mo., writes: "When I look at my little boy I feel it my duty to write you. Perhaps some one will see my testimony and be led to use your 'Favorite Prescription' and be blessed in the same way. I took nine bottles and to my surprise it carried me through and gave me as fine a little boy as ever was. Weighed ten and one-half pounds. He is now five months old, has never been sick a day, and is so strong that every body who sees him wonders at him. He is so playful and holds himself up so well."

THE PEOPLE'S PARTY IN LINE.

LEADERS ASK SUPPORT OF BRYAN AND STEVENSON.

Will Join With Democrats for Triumph of Long Cherished Principles.

RAINBOW ADDRESS TO THE PEOPLE.

Vice Chairman Edmiston and Secretary Edgerton, of the Populist National Committee, have issued an address appealing for support of W. J. Bryan and Stevenson as Vice Presidential candidates. The address says:

"To the people of the United States:—At the direction of the National Committee we send you greetings. We are on the eve of victory for the principles for which we have so long fought. The high and holy purpose for which we have fought is now within our grasp. No party has ever made such sacrifice or shown such unselfishness as the People's party during the past 10 years of its existence, and that sacrifice and patriotic devotion to principle are now beginning to bear fruit. One more charge and the fight is won. Let us join the grounds we did in 1898 for the sake of the people and the love we bear the people's cause. We call upon every Populist in the Union to rally once more under the banner of reform, and to assist us in winning this culminating struggle of the century."

EXAMPLE OF SACRIFICE.

"In nominating Mr. Stevenson for the Vice Presidency the People's party gave a sublime example of the renunciation of partisanship. We had already nominated Mr. Bryan, the standard-bearer of another organization, as our candidate for President. We had nominated Mr. Towne, the brilliant young leader of the Silver Republicans, for Vice President. Although deeply disappointed at the failure of the Democratic Convention to ratify this nomination, we followed the only course that seemed open to us, and for the sake of harmony and unity, overlooked all mere party considerations and made both Democratic standard-bearers our own."

"We believe that we have not only strengthened the cause, but that in the long run we have also strengthened our own party organization. Right never dies, and the principles that brought the People's party into existence will spring up with redoubled vigor and will continue to grow in the hearts and minds of the people until we are victorious. We have laid down much that the cause might succeed, and in its triumph as well."

MEASURE OF GREATNESS.

"No man ever becomes really great until he learns to sacrifice himself for an idea or a truth; and no party can ever become really worthy of accomplishing the high and holy purpose for which it was born until it has been tried by the same sacrifices. Truly did the greatest of all say, 'He who lays down his life for his sake, shall find it again.' 'While Lincoln did not believe in abolition, his election meant the ending of human slavery on this continent. In the same way the election of Bryan means the beginning of a new era in American politics. The future victories for humanity that will grow out of it no man can foresee. The Populist party was the beginning of this movement and is the impulse which carries it forward. We have grown until our principles have permeated the masses of another great party and have thus made them our allies in this campaign. Trees planted years ago have taken root and have grown until now, at the beginning of a new century, they are about to blossom into victory."

HUMANITY AND LIBERTY.

"In the name of humanity and for the cause of liberty, which is as sacred now as it was in any of the great party struggles of the past, we call upon the people to rally to the support of the Republic in its hour of struggle against the world-old forces of monarchy and freedom. There are only two sides to the contest. There is no middle of the road. 'He who is not for me is against me.' He who does not

PORTO RICO AS IT IS TO-DAY.

A VIVID INSIGHT INTO ITS FORM OF GOVERNMENT.

What Mr. McKinley and the Republican Party Has Done for This Sunny Isle of the Sea.

CONDITIONS PLAINLY DESCRIBED.

"We commend the policy of the Republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its efforts to secure for the public service in Porto Rico, Hawaii and the Philippine Islands, only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to their inhabitants."—Republican platform of 1900.

At the very time this remarkable plank was adopted, Rathbone, Reeves, Neely, et al., were under arrest for, or charged with, being the principals in the greatest postal robbery ever perpetrated by United States officials—and these frauds were perpetrated in Cuba, by men whose "training and experience" as Republican officials, had especially fitted them for such work.

The following translation of an article published in *La Lucha de Porto Rico*, a Porto Rican daily newspaper published at Ponce, explains the reasons why the inhabitants of that island objected to the celebration of July 25th, as their Independence Day, and also sheds new light on the administration's civil service in Porto Rico. *La Lucha* says:

"The American Government found in Porto Rico a great autonomy like, and as good as, that of Canada. It ought to have accepted this autonomy and approved it instead of overthrowing it as it did. The Porto Ricans under Spanish dominion, were considered Spanish citizens. They had three representatives in the House. These representatives not only governed the island of Porto Rico, but also helped to govern Spain. Now we are to have one delegate to Washington without voice or vote. Then we had a council whose resolutions were always sanctioned by the Governor-General. Now we have an executive council formed, for the most part, of persons who never were Porto Ricans, nor have any business here. Their only interest lies in working for the Republican party in Washington, which party sent them here to the glory of Spain. Then there were short talks by Bro. J. G. Atherton and S. Bennett, and all spent a happy day."

A WONDERFUL CURE OF DIARRHOEA.
A Prominent Virginia Editor Had Almost Given up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Read His Editorial.

(From the Times-Herald, Va.)
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I decided to try it. After taking a few doses I was entirely well and I feel that I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O. AN AGNOSTIC'S TOMBSTONE.
(Signed N. J. Jones, a free Press reporter.)
In beautiful Siloam Cemetery are two tombstones bearing inscriptions calculated to shock believers in God and Christianity. Jeremiah Hacker was an agnostic and he determined to testify to his unbelief even after death. Years before he died, Hacker had inscribed a tombstone for his wife and one for himself. On his wife's was her name, dates of birth and death and the sentence: "Where is God?" On his own inscribed: "The Angry, Wrathful, Bible God is a Myth. Hacker's wishes were carried out after death and the stones are pointed out to visitors to the cemetery as its most interesting features."

Endured Death's Agonies.
Only a roaring fire enabled J. M. Garretson, of San Antonio, Tex., to lie down when attacked by Asthma. He writes his misery was often so great that it seemed he could not endure the agonies of death, but Dr. King's New Discovery for Consumption wholly cured him. This marvelous medicine is the only known cure for Asthma as well as Consumption, Coughs and Colds, and all Throat, Chest and Lung troubles. Price 50c and \$1.00. Guaranteed. Trial bottles free at J. H. Williams' Drug Store.

tion get the best jobs. Formerly we had personal security in the streets and on the highways. But to-day, under the administration of Republican officials, high and low, appointed by the Administration at Washington, we are compelled to carry arms to protect ourselves because the worst elements, both in Porto Rico and America, have followed the flag. Formerly no Porto Rican was ever condemned to the penitentiary for having whipped a continental (an American). All crimes were formerly properly punished and assassins could not go free—assassins among the Americans, like those who killed Senor Barrios, who was striking for higher wages for his work in the most peaceable and orderly way.

Formerly we had no mobs who went about the streets creating tumult and challenging death.

Formerly we had our own Constitution. To-day we have nothing in its place—absolutely nothing. Formerly the country people did not have to migrate from camp to camp, driven by their hunger and misery to roaming the streets devoid of clothing. Formerly we did not hear insults in the mouths of ministers and American Senators in Congress, as we have from Mr. Root and his Republican partisans.

"The army transports bring provisions here from the United States and nothing is purchased from the natives by the business people of the island."

"There are kept in Washington a million of dollars which belong to the people of Porto Rico, who are in dire need of this money to prevent starvation."

"We are utterly broken down by the fifteen per cent. tariff, which amounts, in gold, to more than the whole of the Spanish tariff."

"We have to pay school taxes—that is, each inhabitant has to pay one dollar taxes to cover the expenditures for useless schools in Porto Rico and useless buildings for schools here. We paid for the construction of a model school, which has an intrinsic value of \$6,000, the sum of \$12,000."

"Taxes have to be paid now on horses, dogs, carts, etc. The public funds are collected and disbursed with no account being taken and nobody here knows how much comes and how much goes out. This state of affairs has existed from the 18th of October, 1898, when the Americans took possession of the island, up to the 27th of July, 1900. And the veil which covers these transactions can only be lifted by Mr. McKinley and his official family, including baggage. (Republican carpet-baggers.)"

"These are some of the reasons why we kept quiet and felt no disposition to celebrate the 25th of July with American flag services. It was on this day that the American military rule—our slavery and our funeral—began. When we believed that the Sun of Liberty would rise and shed its rays upon us, and when we aided in the circumstances which brought about this change from the rule of Spain, we only assisted in bringing on the present spectacle of terrible slavery. We thought we would at least be declared a territory, but we are only a colony. We really do not know what we are. We are changed from the Spanish rule to that of America, the purpose of which we do not know. We desired prosperity and we have been reduced to abject misery."

Just as Good—Whenever a druggist tells you he has something "just as good" for coughs, colds, grip, etc., as Dr. Bell's Pine-Tree-Honey, he is thinking of his profits and not of your welfare. Good druggists will sell you what you ask for, and you can ask for nothing as good as Dr. Bell's Pine-Tree-Honey. Good druggists sell it.

Old Mother Died of Joy.
NEW YORK, Sept. 7.—Passengers on an incoming steamer witnessed a most pathetic incident a few days ago in the death of a dear old mother, who, after years of waiting to join her son in this country, expired in sight of the Promised Land.

Mrs. Elizabeth McClanahan, with her daughter, had come from Scotland on the steamship Furber to live with the son and brother in Philadelphia.

When she saw her son on the wharf she swooned, and died before the vessel reached its dock. Doctor Hadison, the ship's surgeon, said heart disease killed her.

"Anti"—against or opposed to. Dr. Bell's Anti-pain is just what its name implies—opposed to pain. It contains no opiate, cocaine or chloral, and is an instant relief for acute or chronic pain, internal or external.

New National Party.
NEW YORK, Sept. 5.—The National party, the official name of the third party, met in convention to-day in Carnegie Hall, this city, and nominated candidates for President and Vice President of the United States. A platform was adopted and a title and emblem chosen. These are the candidates: For President, Donelson Caffery, of Louisiana; for Vice President, Archibald M. Howe, of Bainbridge, Mass.

There were no other candidates for the positions, and the nominations were received with hearty applause.

The platform adopted declares that this country is threatened on one hand by a public opinion misled by organized forces that have perverted a war intended by the people as a war of humanity, into a war of conquest; and, on the other hand, by a public opinion

swayed by demagogic appeals to factional and class passions.

The platform then declares for all constitutional means to procure the renunciation of all imperial or colonial pretensions, and for all constitutional means to secure a gold standard and a sound banking system, a public service based on merit only, and the abolition of all corrupting special privileges, whether under the guise of subsidies, bounties, undeserved pensions or trust-breeding tariffs.

Attempted Kidnapping at Calhoun.
CALHOUN, Ky., Sept. 6.—Terry Horrell came here from Indiana some time ago to operate a large saw-mill plant. Prior to leaving Indiana he had separated from his wife. He brought three children to Kentucky, the youngest of whom is a six-year-old girl. Two or three weeks ago Mrs. Horrell came here with two detectives for the purpose, it is alleged, of securing possession of the little girl.

P. E. Notter, one of the detectives, was in the hotel office last night when Neal Horrell, a son of Terry Horrell, walked into the office and told Notter he wanted to speak to him. The detective said he would talk to him right there. Horrell started toward him and Notter drew a revolver. Horrell went to police headquarters and swore out a warrant for Notter. The Marshal summoned two men and went to Notter's room to arrest him and when he opened the door Notter presented a pistol at the Marshal's head. The officer also drew a pistol and Notter was overpowered and surrendered. He was tried in Police Court this morning and fined \$25 and ten days in jail for carrying concealed a weapon.

Mrs. Horrell and the other detective drove in from the country this morning about the hour set for the trial. Mrs. Horrell spent the day in seclusion at the law office of J. H. Miller, and after Notter's trial she and the other detective got in the buggy and drove away. They have not since been seen. Notter, the man in jail, admits that he and the other detective came to Kentucky for the purpose of kidnapping the little Horrell girl. They have been seen lurking around Mr. Horrell's premises on several occasions—more than once at midnight.
